

Astah NODE COUNT LICENSE

Astah Node Count License is available for both Astah professional and Astah UML editions and an excellent option for very large teams.

Here is how Astah Node Count License works: After installing Astah a License Manager (member of your team) assigns team members licenses - those licenses can be returned to the manager to be re-distributed once a user no longer needs Astah for a project.

- How Node Count License works

The License Manager can see the list of all activated license information on the website anytime. No individual license registration is needed and that makes unified management possible.

Node Count License

License Information Details

License Number	
Product Type	astah* UML
License Validity Period	Mar. 01, 2010 - Mar. 01, 2011
Support Period	Mar. 01, 2010 - Mar. 01, 2011

- Price

Astah Professional Node Count

LICENSE USE	SUPPORT	PRICE
1 Year Timed	10 License	\$1,500
1 Year Timed	50 License	\$6,000
1 Year Timed	100 License	\$10,000

Astah UML Node Count

LICENSE USE	SUPPORT	PRICE
1 Year Timed	10 License	\$650
1 Year Timed	50 License	\$2,500
1 Year Timed	100 License	\$4,500

- Remarks

- Network access is required to activate a license for each user to activate a license. Once the license is activated successfully, network access is not required to use Astah.
- Node Count License is available for Astah version 6.1 and later
- To install and use astah* on a thin client or server, each user needs to have a license. Technical support is not provided for any cases arisen during running astah* on thin client or server.

- Trial

We will send 10 Astah Professional Node Count License (1 month) for you to try out if you would like to make sure Astah Node Count License is applicable in your environment before you purchase. Please contact us to astah-sales@change-vision.com and include the information below.

Your full name / Your organization's name / Department / e-mail address

* Email address should include the organization's domain name.

- Purchase

You are able to purchase Node Count License from [our online store](#) or [distributors](#).

- License Registration

1. Register a license (one pack)

A license manager registers a license.

1. Have Node Count License information (License number and Validation Code) ready.
2. Register with [ChangeVision Members](#) and login to ChangeVision Members service.
3. Select [Download] from left menu and download the edition to use. (You will distribute this installer to users)
4. Select [License Registration] from left menu and enter the license information, and then press [Add]. License information appears. Specify the start date of your license from the Pull-down menu and press [Next] button.

License registry

Register one license | Register more than one license

1. Enter license number and validation code.

License Number

Validation Code

2. Press [Add] button.

License Number	Product Type	License Type	Start of Period	Validity Period	Support Period
<input type="text"/>	astah* professional	10 Node Count License for 1 year	<input type="text" value="Mar. 05, 2010"/>	Mar. 04, 2011	Mar. 04, 2011

3. Specify the start date of your license

4. Press [Next] button.

5. License information is displayed. Please make sure all is correct and then click [Register License].

Issuing a new License

Your license key file will be sent to the e-mail address below. Please make sure that the e-mail address is correct.

Sending to

License keys are .xml format files. You will receive an e-mail from us with an URL inside. Please click on the URL to receive your license key file.

Please confirm that all the contents of the license is correct, and then click [Register License] button to proceed.

License Number	<input type="text"/>
Name	<input type="text"/>
Company/School/Organization	Change Vision, Inc.
Product Type	astah* professional
License Type	10 Node Count License for 1 year
License Validity Period	Mar. 05, 2010 - Mar. 04, 2011
Support Period	Mar. 05, 2010 - Mar. 04, 2011

Ensure that all the content is correct.

Click [Register License] button

6. You will receive an email with URL in where you can download a license key file (xml)
7. Distribute the license key file to individual users.

2. Register a license (Multiple packs)

A license manager registers a license.

1. Register a first pack by following step1 to 5 in the [1. Register a license \(one pack\)](#)
2. Select [License Management] from left menu
3. The license information you just registered appears. Select [Add Node Count License] from the Pull-down menu and then click [Next].

6. License information will be displayed. Please make sure all is correct and then click [Register License]
7. You will receive an email from us with URL where you can download a license key file (xml). Download the license key file and then distribute it to all the users.

3. Renew a license

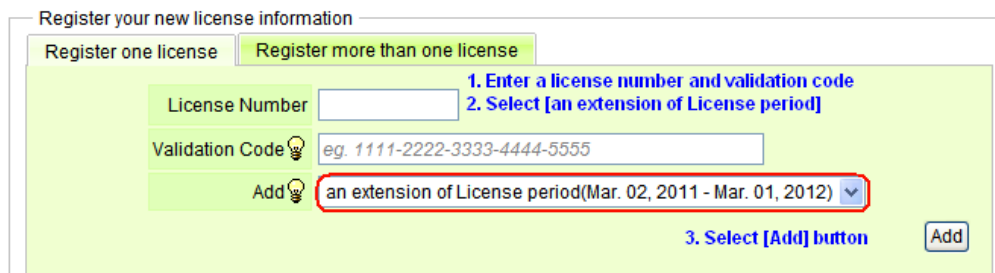

A license manager renews the license.

Renewal of Node Count License is available just by registering another Node Count License.

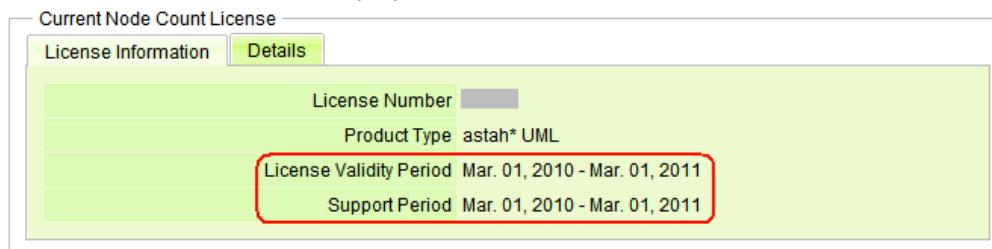

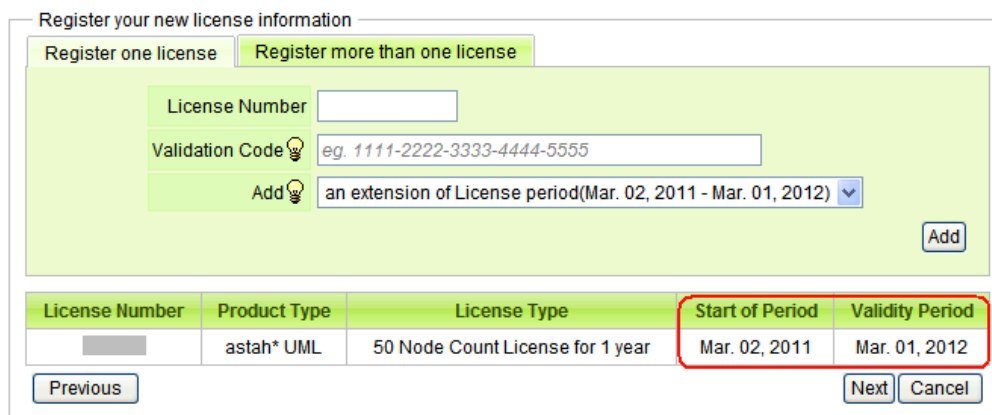

1. Login to [ChangeVision Members](#) and select [License Registration] from left menu. All the registered licenses in your account appear. Select the license you want to renew and then select [Add Node Count License] from the Pull-down menu and then click [Next].

2. Enter the license information of another Node Count License, and then select [an extension of License Period] from add: column, and then select [Add]

3. License information will be displayed. Please make sure the information is correct and then click [Next].

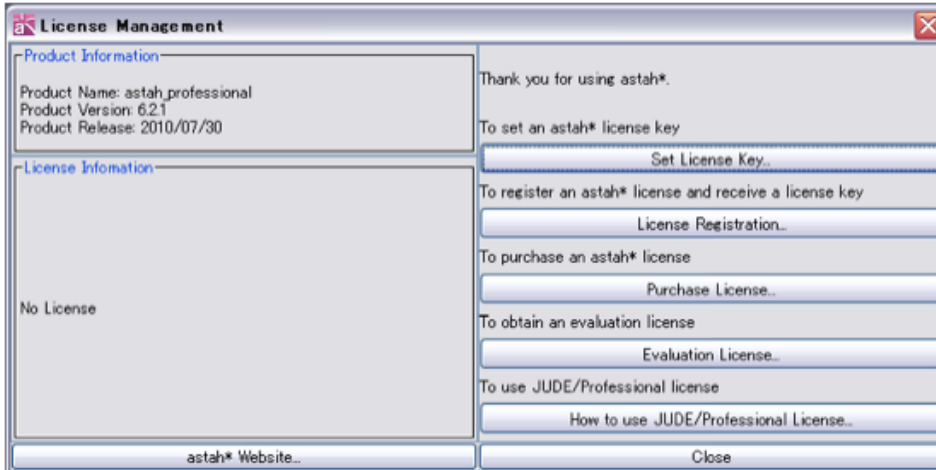

License Number	Product Type	License Type	Start of Period	Validity Period
	astah* UML	50 Node Count License for 1 year	Mar. 02, 2011	Mar. 01, 2012

- License information will be displayed again, please make sure all the content is correct and then click [Register License].
- You will receive an email from us with URL where you can download a license key file (xml). Download the license key file and then distribute it to all the users.

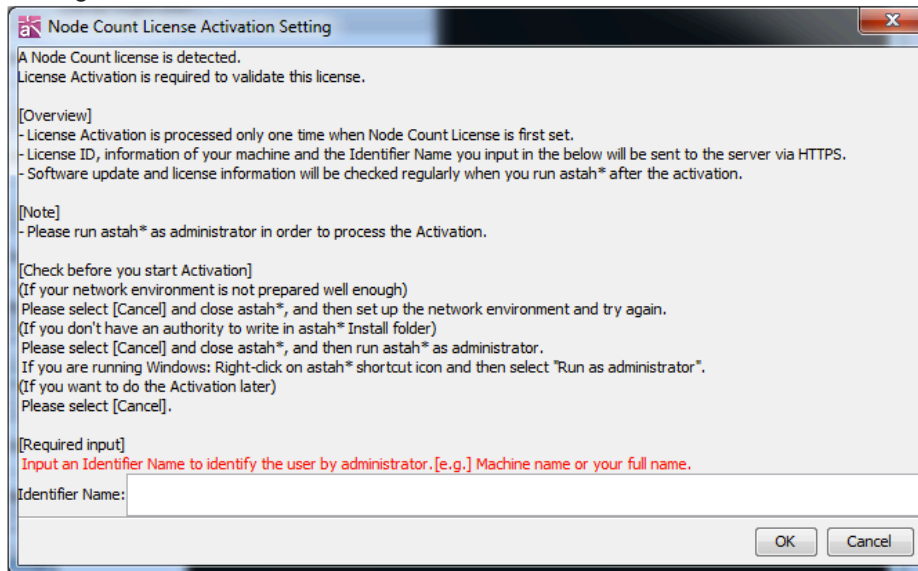

- License Activation

Each user activates the license.

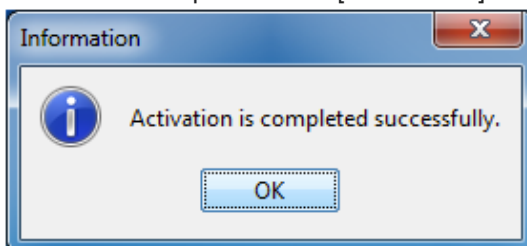

- Run Astah, [License Management] should appear automatically. Select [Set License Key]

- Specify the license key file (.xml) you received from a license manager
- [Node Count License Activation Setting] dialog appears. Enter name that license manager can identify you in [Identifier Name] box then click [OK]. What you typed in here will be shown in user list that a license manager view.

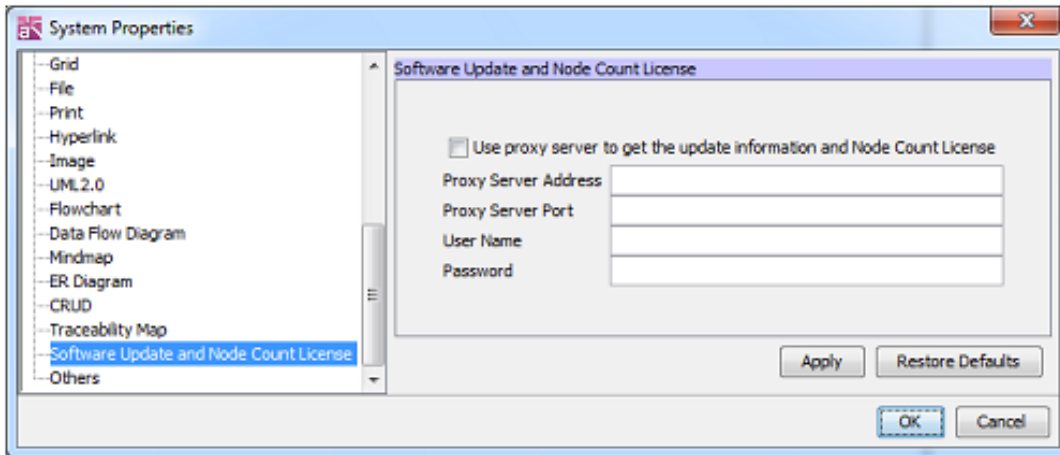

- Activation is completed if the [Information] dialog below appears.

- Use a Proxy

If you access the network using a Proxy, please set up the [System Properties] first.

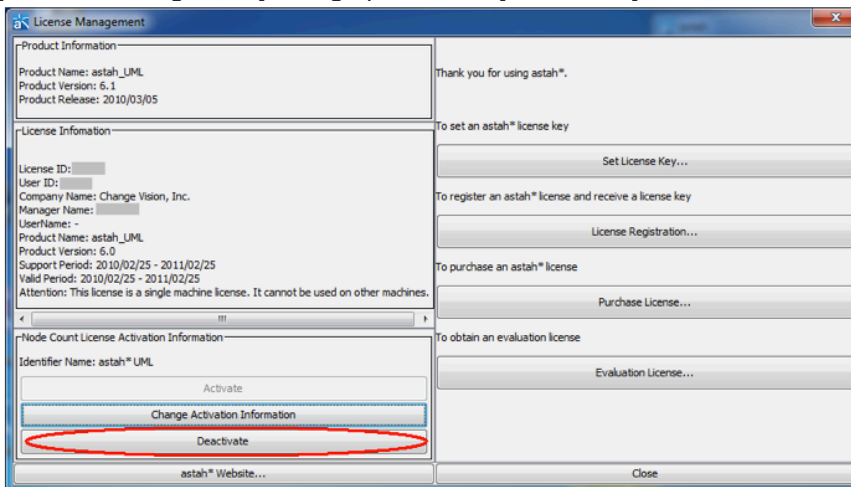

1. Go o [Tool] – [System Properties] from main menu
2. Select [Software Update and Node Count License] from left menu, fill out the required information, and then click [Apply] – [OK].

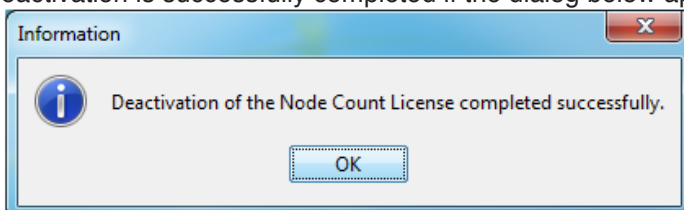

3. Try the license activation again.

- Deactivate license (User returning a License)

1. Go to [Tool] – [License] from Main menu
2. [License Management] dialog opens, click [Deactivate]

3. Deactivation is successfully completed if the dialog below appears.

- Deactivate license (License Manager)

License Manager can deactivate the license.

1. Login to [ChangeVision Members](#) and go to [License Management]

2. Select a license information panel and then select [View Activation Status] from the Pull-down menu and click [Next].
3. Check the license you want to deactivate, and then click [Deactivate] button.
