

# End-of-Life Announcement for Astah GSN

## Overview

Astah announced the end-of-sale and end-of-life dates for Astah GSN.

## Milestones

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end-of-sale of Astah GSN product and end-of-life of product licenses is distributed to the general public.	September 30, 2022
End-of-Sale Date	The last date to order the product through <a href="#">Astah Online Store</a> and <a href="#">resellers</a> . The purchase of these products is no longer available after this date.	March 31, 2023
Last Delivery Date	The last-possible ship date of the purchased license. This is the ship date from Astah to the customers who purchased through <a href="#">Astah Online Store</a> and also from Astah to the <a href="#">resellers</a> . The delivery date from the resellers to end-users is dependent on the reseller.	April 3, 2023
Last Date of Support	The last date to receive technical support regarding the product. After this date, all support services for the product are unavailable, and the product becomes obsolete.	March 31, 2024
Last Date of Download	The last date to download Astah GSN product. You will no longer be able to download the installers of Astah GSN from <a href="#">our website</a> after this date.	March 31, 2024

## Affected product licenses

The following licenses are no longer for sale.

- Astah GSN Annual License
- Astah GSN Organizational License
- [Astah Engineering Pack License](#)

## How to renew your licenses

### Table of Contents

- Milestones
- Affected product licenses
- How to renew licenses
- Product migration option
- Migrate to Astah System Safety
- Questions and FAQ

## (A) If you are on auto-recurring Subscription

From the next renewal after April 1st, 2023, you will be receiving [Astah System Safety](#) licenses instead of Astah GSN but the price remains the same.

## (B) If you are NOT on auto-recurring Subscription

Please [purchase Astah System Safety license](#).

If you can directly purchase the license from [our online store](#) (Credit Card payment only), we will provide a discount coupon code for you to purchase Astah System Safety license at the same price as Astah GSN. So please contact us if you'd like a coupon code.

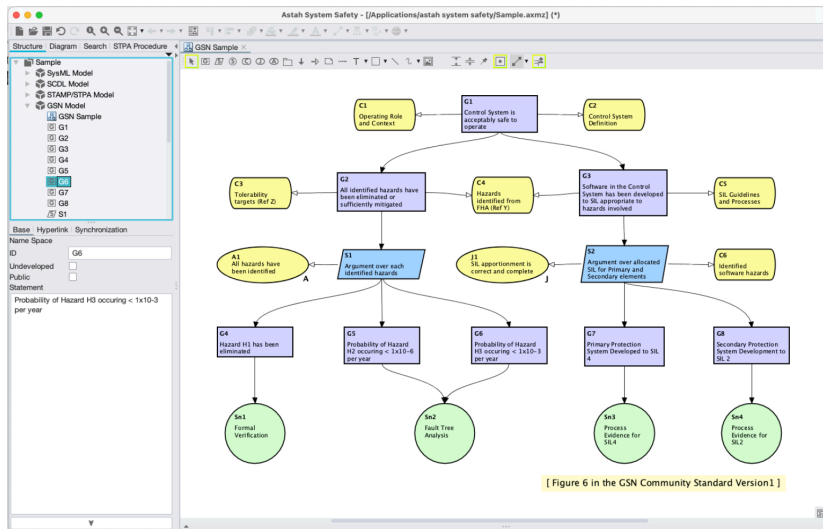

## Product migration option

Customers who have valid Astah GSN licenses can upgrade to [Astah System Safety](#) for free.

Astah System Safety is the newest modeling tool of Astah series that supports GSN.

You can load your Astah GSN files to Astah System Safety.

GSN in Astah System Safety

- [How to load Astah GSN files to Astah System Safety](#)

## Free Astah System Safety License for customers

On September 30th, 2022, we provided free license of Astah System Safety for all the Astah GSN customers who have valid Astah GSN license. The license has the same expiry date as the existing Astah GSN licenses. So all the customers can migrate to [Astah System Safety](#) for free.

## Frequently Asked Questions

You can see all EOL-related FAQs from [here](#).

### I have a license that is not registered, what should I do?

Please register the license until March 31st, 2024 by following the License Guide below.

– [Individual License](#)

### How can I load my Astah GSN files to Astah System Safety? -

Please read the guide here.

- [How to load Astah GSN files to Astah System Safety](#)

NOTE: You can import Astah GSN file to Astah System Safety but no the other way around.

### What should I do if I have additional questions or concerns about this EOL? -

Please contact us from [this form](#).

# Release Notes

## GSN 1.2 (March 13, 2019)

**Released:** March 13, 2019

**Model Version** ⓘ : 39

**Bundled Java:** AdoptOpenJDK 8u181-b13

### All Releases

GSN 1.2 (March 13, 2019)

GSN 1.1 (July 24, 2015)

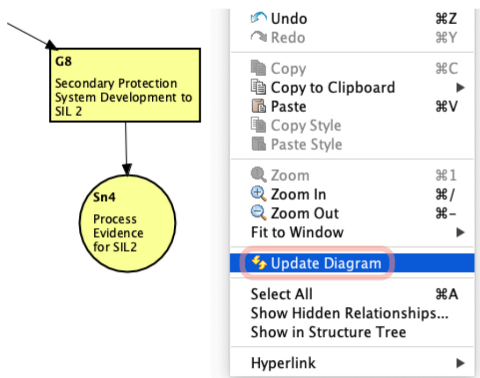

GSN 1.0 (June 30, 2014)

### AdoptOpenJDK as Astah's JRE

Due to Oracle's end of public support of Java8 for commercial users, we've changed the bundled JRE for Astah to AdoptOpenJDK. If your company security policy does not allow a use of app with un-supported JRE, update to version 1.2, then you will be all set.

### Improvements

- [7410] We switched the bundled JRE from Oracle Java to AdoptOpenJDK.
- [7437] **[Update Diagram]** menu is added to adjust objects' size and layout on the diagram. Since we've changed a drawing library from this version, diagrams created with earlier versions may look different on this version. This **[Update Diagram]** menu fixes the difference to make the diagram look right.

- [---] We discontinued the Startup Screen.

# System Requirements

<b>OS:</b> Windows 10, 8.1 and 7 (32bit, 64bit)	<b>OS:</b> macOS 10.13.6 or later	<b>OS:</b> Ubuntu 16.04 CentOS 7(1611)
<b>CPU:</b> 1 GHz or better	<b>CPU:</b> Intel Processor	-
<b>Memory:</b> 2GB RAM (4GB recommended)	<b>Memory:</b> 2GB RAM (4GB recommended)	-
<b>Drive Space:</b> 400MB	<b>Drive Space:</b> 400MB	<b>Drive Space:</b> 400MB
<b>Java:</b> Bundled JRE Only	<b>Java:</b> Bundled JRE Only	<b>Java:</b> AdoptOpenJDK 8u181-b13

# Release Notes

## GSN 1.1 (July 24, 2015)

Released: July 24, 2015

Model Version : 39

### All Releases

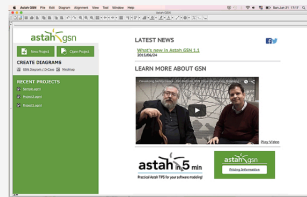

[GSN 1.2 \(March 13, 2019\)](#)

**[GSN 1.1 \(July 24, 2015\)](#)**

[GSN 1.0 \(June 30, 2014\)](#)

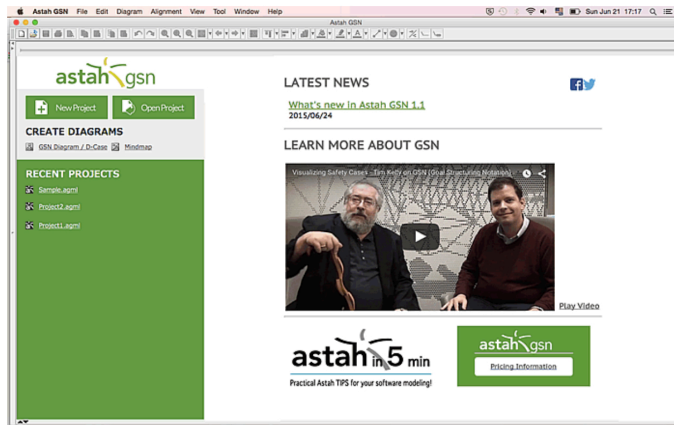

### Highlights

- New Startup Screen
- Auto Layout
- Model ID when cloning model elements
- Goal based Module ID/Statement
- Reset Model ID

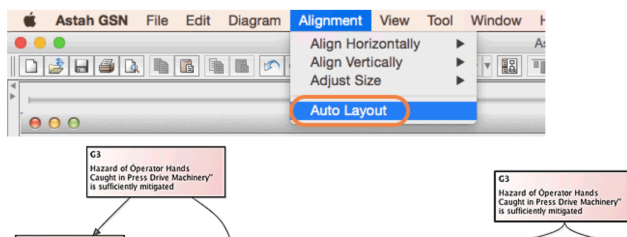

### New Startup Screen

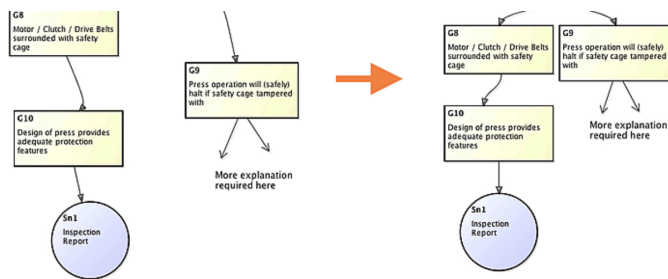

We've implemented a new startup screen that appears when first launching Astah GSN! Now you can create a new file or open recent files easier! Also, you can directly access to GSN related news!

### Auto Layout

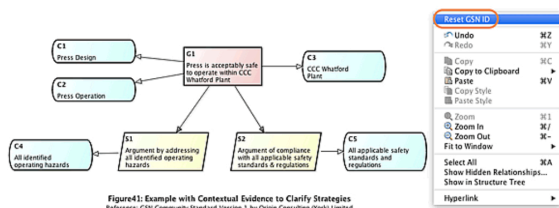

Auto Layout for Astah GSN is now available from the Alignment menu. You no longer need to use the Script-plugin for Auto-layout with this newest version.

## Model ID Reset

You can reset IDs of all GSN models from the top-left to the right bottom. Models will have IDs automatically in the order they are created, so an ID of models that are added after will look random. This ID Reset helps to streamline IDs after your GSN is complete!

## Fixed Bugs

- [579] When copying GSN to Clipboard, it loses a part of “undeveloped” label
- [593] (Mac) An exception error happens when pasting Japanese text to models ID or statements
- [605] Resizing the Window opens [Extra view] even when it should be closed

## System Requirements

**OS:**  
Windows 10, 8.1, 8 and 7  
(32bit, 64bit), Vista(32bit)

**OS:**  
macOS 10.8.3 or later

**OS:**  
Ubuntu 12.04  
CentOS 6.5

**CPU:**  
1 GHz or better

**CPU:**  
Intel Processor
